Piyush Gupta, based in Hyderabad, India is leading the capacity building and knowledge management initiatives at NISG (National Institute for Smart Government). He is anchoring political and policy level workshops for various states in India and building institutional capacity strategy under the National e-Governance Plan (NeGP) in the country. Piyush is responsible for various initiatives including e-Government Champion training and a one year Executive Development Program in e-Governance (eGPX).

R K Bagga has over 4 decades of service in the Army, including DRDO where he spearheaded computer activities in the Integrated Guided Missile Development Programme (IGMDP). He is at present Advisor, Outreach Division, International Institute of Information Technology, Hyderabad, one of the top ten technology schools in India. He was earlier (1998-2004) IT Area & CMC Chair at Administrative Staff College of India, Hyderabad.

Sridevi Ayaluri has over 9 years of experience in the field of IT and e-Governance as a trainer and capacity building. Presently she is working with the National Institute for Smart Government, NISG as Project Manager, Capacity Building & Knowledge Management. Sridevi is associated with various National and State level capacity building initiatives in e-Governance, under the National e-Governance Plan of India.

Information and Communications Technology (ICT) is finding major application in the Government sector these days. This compilation includes the recent implementation of ICT in India in the area of e-Governance. The write ups included in this book have been collected from the project implementers working on different e-Governance projects in India. This exercise has been facilitated by Computer Society of India (CSI) with support from Nihilent Technologies Ltd, by instituting the e-Governance Awards of Excellence since 2002. The information in this book is primarily for the year 2008-2009 and is updated on 9th October 2009 to ensure that latest details on these important initiatives are available to the researchers, as well as implementers of e-Governance in the country. The book also contains details of Integrated Delivery Audit legal Framework and project assessment methodology, based on the results and enablers approach adopted during the current year for these CSI Nihilent e-Governance Awards. This is fourth in series by CSI SIG-e-Governance in sharing the knowledge in form of book publications.
